About Us

Founded in 1990 by Mr. Rajesh M. Mavani, we began by introducing computers and technology to Vapi. Evolving from hardware to software, we became one of South Gujarat's first official **Tally partners and expanded into ERP, CRM, HRMS, Payroll, and customized solutions**. In 2025, with **Mr. Niket Shah as Managing Director**, we entered a new era of growth. Today, we are a trusted name in software solutions, driven by innovation, customer focus, and a future-ready vision.
